Brand New Book ***** Print on Demand *****.Animal identification (ID) refers to marking individual or groups of farm animals so that they can be tracked from birth to slaughter. Animal ID is one segment of meat traceability, generally the tracking of identifiable products through the entire marketing chain to the ultimate consumer. Animal ID and meat traceability have been suggested as potentially useful tools in animal health, food safety, quality assurance, or country-of-origin labeling programs. No nationwide U.S. animal ID system is yet in place, although many producers do keep records on their animals for herd management and/or as part of animal disease programs. Interest in a comprehensive system has intensified in light of discoveries of bovine spongiform encephalopathy (BSE or mad cow disease) in several North American cows, debate over mandatory country-of-origin labeling (COOL) for meats and other products, and ongoing concerns about bioterrorism. Government and industry groups have been working for several years on establishing a national animal ID system, with animal health its primary purpose. A key goal is the ability to identify all animals and premises potentially exposed to a foreign animal disease within 48 hours of its discovery. Policy issues have revolved around whether it should be mandatory, privacy issues, who should .
