Brand New Book ***** Print on Demand *****.Excerpt from Transaction Cost Approach to Component: Make-or-Buy Decisions The transaction cost approach to the study of organizations covers a wide spectrum of issues, ranging from varieties of organizational structure (Armour and Teece, 1978), to franchise contracting (Williamson, 1976). A transaction is the transfer of a good or service between technologically separable units (Williamson, 1982), and the analysis of transactions focuses on achieving efficiency in their administration. The analytical framework has two sides: first, the administrative mechanisms whose efficiency is at issue and second, the dimensions of transactions which determine how efficiently a particular administrative mechanism performs. Matching these sides of the problem is the critical task. Given sufficient continuity or frequency of a transaction to generate concern for the efficient use of resources repeatedly allocated to it, two general dimensions determine which mode of governing the transaction is most efficient: 1) the uncertainty associated with transaction execution and 2) the uniqueness or specificity of the assets assigned by the buyer or supplier to the good or service transacted. Williamson's argument (1975) is that in an...
