The exercises called Review Work suggest the complete system the teacher will adopt. In Multiplication emphasize the difference in the functions of the two factors. In Division distinguish clearly its two phases - subtractional and partitive. Teach Cancellation as an introduction to Factors. Drills in Factoring should be frequent and thorough. Illustrate each operation in Fractions with objects, or with drawings, cuttings, foldings, etc. Develop the principles in Compound Numbers by actual work with the yardstick and other common measures. In Percentage and Interest illustrate with objective work as in Fractions. Generally: 1. Teach facts before definitions, principles before rules. 2. In analysis encourage completeness in the chain of reasoning and accuracy of expression. 3. Insist upon neatness and orderly arrangement in the forms of written work.
