

materials connected devices and processes

Filesize: 5.45 MB

Reviews

A must buy book if you need to adding benefit. We have study and so i am sure that i am going to likely to study once again again in the foreseeable future. I realized this book from my i and dad encouraged this ebook to discover.

(Duane Fadel)

MATERIALS CONNECTED DEVICES AND PROCESSES

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 469 Publisher: Machinery Industry Press. Pub. Date :2009-01. Material connected devices and technology for the general higher education Eleventh Five-Year national planning materials. to live in a pivotal position in the connection technology of welding technology. focusing on a more systematic introduction to the theory and application of welding technology. and connectivity applications microelectronics technology. Materials and processes connected devices is divided into four parts: the first part of the welding equipment. process theory and application. including arc welding theory and arc welding. submerged arc welding. TIG welding. MIG welding. CO2 gas shielded arc welding. plasma arc welding and spraying process theory and applications. as well as electro-slag welding. laser welding of high-energy beam welding. electron beam welding process theory and application; second part is the pressure welding equipment. process theory and applications. including resistance welding. friction welding. diffusion welding. deformation welding. ultrasonic welding. explosion welding. etc. Technology Theory and Application; third part is soldering equipment. process theory and applications. including brazing theoretical basis. a variety of brazing technology and equipment. different materials. brazing. etc.; The fourth section briefly describes the characteristics of micro-electronics connection technology and its applications. including applications within the device to connect welding. bonding. welding and other techniques and devices connected between the wave . reflow soldering techniques. Materials and processes connected devices can be used as material forming institutions of higher learning and control engineering (welding direction) the main course materials are also available for connection and welding technology in materials engineering and technical officers. More Contents: Preface Introduction 0.1 Overview 0.2 connection technology materials development of welding methods and classification of the substance of welding 0.3 0.4 nature of the courses...
